- Wire cutters
- Assorted beads and buttons
- Four ½" (approx.) magnets
- Polyester fiberfill

## INSTRUCTIONS:

*\*Enlarge pattern 200% on copy machine and cut out all pieces according to colors indicated.*

STEP 1: Sew or glue two black beads for the eyes for the pumpkin and ghost and white beads for the bat and cat. Cut a 3" piece of craft wire. Attach one black bead to each end and twist the ends in a circle to secure. Twist the wire until satisfied to form mouth. Stitch or glue wire mouth to felt.

STEP 2: Join to the second piece of felt. Starting at the top, stitch large running stitches or blanket stitches ⅛" from edges with the black embroidery thread. Leave an opening to stuff with polyester fiberfill. Finish stitching to close.

### STEP 3: HAPPY PUMPKIN

Glue the nose onto the face. Glue stem/leaf to face. Twist some craft wire for vines and secure to top with a stitch. Glue a magnet to the back.

#### STEP 4: GLITTER GHOST

String two pieces of black Fun Fiber or yarn with assorted beads. Glue or sew to secure ends to hands. Glue or sew a button to each hand to cover fibers. Twist a small piece of craft wire into desired shape and attach to back of head. Glue magnet to back.

#### STEP 5: SPOOKY BAT

Glue or sew black beads to each tip of the bats wing tips. Glue magnet to back.

#### STEP 6: COOL CAT

Glue the nose onto the face. Stitch some whiskers onto the face with black embroidery floss and trim to satisfaction. Stitch head to body. Glue or sew the two pieces of felt for the tail together with a piece of craft wire between them. Wrap a length of fun fibers or fuzzy yarn around tail and secure with a stitch. Stitch to back of cat. String a few beads to a small piece of fun fiber or yarn and tie around cat's neck. Glue magnet to back.
