

# Clothespin Doll Dress Tutorial & Pattern

## Supplies:

- [Kunin Rainbow Classicfelt™](#) in any color combinations. This is a great scrap buster project!
- Embroidery Floss
- Basic Sewing & Embroidery Supplies

## Instructions:

1. Using the pattern, cut out dress pieces
2. Sew the collar onto the dress piece that you will designate as the dress front.
3. Embroider a floral design onto the apron piece and then stitch the apron onto the dress front.
4. Use French knots to create “buttons” down the front of the dress.
5. Place the back dress piece onto your work surface. Then lay the doll down on the dress. Cover with the top of the dress piece. Pin in place. You will sew the doll into the dress.
6. Begin stitching the back and front of the dress together. It’s best to start at the top and work down. Don’t forget to leave the arms and bottom of the dress open.
